coastwise shipping law, held a meet-
ing on the roof garden of the Alexan-
der Hotel yesterday afternoon to
decide on a course of action. It was
decided to cable a resolution to De-
legate Kuhio at Washington, calling for
a suspension of the present law for six
years, or until three new passenger
steamers shall have been built and
placed on the run between here and the
Pacific Coast.Several speeches, favoring the sus-
pension of the law, were made by mem-
bers present. Governor Frear delivered a
long talk, explaining the state of affairs
as he believed them to be on the main-
land, and urging that the Chamber of
Commerce's stand in favor of the sus-
pension of the law be endorsed.J. P. Cooke offered a resolution that
a cable be sent to Captain Matson, ask-
ing him to withdraw his opposition to
the suspension of the coastwise ship-
ping law. The resolution was adopted.The chief resolution was offered by
W. R. Castle.
After the adoption of the Castle res-
olution had been moved and seconded
Chairman Harry von Holt called for
discussion on the problem. Several
talks were made in favor of the pass-
ing of the resolution. One of the
speakers urged that the resolution
should be increased in scope a little, to
provide for the carrying of fruit on
foreign bottoms. The suggestion did
not meet with favor.After the adoption of the Castle res-
olution, a cash collection was taken up
to provide the money needed to cable
it to Delegate Kuhio at Washington.
"Whereas, in the absence of Ameri-
can ships, the operation of the coast-
wise navigation laws in Hawaii has
produced very great inconvenience,
amounting almost to a denial of the
right of individuals to freedom of
movement, except to travel away
from the United States; and such in-
convenience must continue and will
increase, to the great detriment of
the Territory, and now does and must
hereafter operate seriously against
the influx of Americans; and,"Whereas, the President of the
United States in his Annual Message
to Congress recognized the injustice
of present conditions and has urged
measures of relief in suspending the
operation of the coastwise naviga-
tion laws, and in response to such
recommendation a bill has been in-
troduced in Congress to suspend said
coastwise navigation laws in their
application to passenger travel be-
tween Hawaii and the mainland of
the United States, which bill has the
probable support of a majority of
Congress; and,"Whereas, it is of vital importance
to Hawaii that the right to travel be-
tween Hawaii and the mainland shall
not be restrained, to the end that
every possible encouragement should
be given to increase the number of
Americans coming to Hawaii in the
hope that many will be induced to
settle and thereby assist in the true
Americanization of this Territory; and,"Whereas, the history and experi-
ence of other places has proved that
the increase of facilities for trans-
portation has enormously added to
the volume of travel, and there is no
reason to doubt that such will be the
case here, until the number of those
traveling between Hawaii and the
mainland of the United States shall
be so great as to induce American
shipowners to furnish the facilities
required for passenger transportation
thereby restoring ships under the
American flag to the Pacific Ocean,
which consummation is earnestly de-
sired by the citizens and residents
of this Territory; therefore,"Resolved, That we, citizens and
residents of Hawaii, do hereby peti-

PROTECT CITYBoard of Health Takes
Timely Steps To
Keep CleanGreater care in the quarantining
of contagious diseases furnished the
principal topic for the Board of
Health at its meeting Friday after-
noon. Diphtheria, meningitis, and
similar diseases from which this city
has been and still is comparatively
free, have not had the attention they
deserve. Consequently a new list of
quarantinable diseases will be sent
out to physicians and active steps
taken to see that every case is taken
to prevent a spread of these troubles.Out of nineteen cases of diphtheria
reported since August last year
there was one death from the dis-
ease. A number of diphtheria cases
are being reported frequently from
the Waikiki district, Nuuanu section,
and other places. James F. Morgan
stated that the schools should be
placed under a strict system of in-
spection to prevent the spread of dis-
eases among children. In this con-
nection Attorney General Hemenway
said that there would be a certain
amount of money available for use in
the future which he thought could
be of use in building a house for the
Boys' Home in Kalihi.Letters from Dr. E. S. Goodhue
and Dr. Archer Irwin, requesting six
months' leaves of absence, were re-
ceived and their requests granted. In
his letter to the Board of Health, the
Hawaii Board of Supervisors object-
ed to the removal of Fish Inspector
John M. Herring of Hilo, without
first consulting them. They asked
the Board to state the reasons under
which he was removed, but President
Robinson announced that sufficient
information had been found to war-
rant the Board refusing to reinstate
him.High Sheriff Henry informed the
Board of Health yesterday that he
would like to send one of his prison-
ers, Fukuda Tatsuda, who was im-
prisoned for life, to the leper settle-
ment at Molokai. The responsibility
for his maintenance and transporta-
tion to the settlement is assured by
the High Sheriff. Fukuda, while in
prison, was examined by the prison
physicians and Dr. McDonald, who
announced him a leper. The requestGURREY'S Picture Framing
